

The United Church of Canada General Council

GC44 Renunciation of Claims to Former Mission Property in the Democratic Republic of Korea (DPRK) for October 2023

Document Date
October 21, 2023

Given that The United Church of Canada at one time owned a number of mission properties in what is now the DPRK, the PROK has invited the United Church to join in making a similarly powerful symbolic witness for reconciliation by renouncing all claims to former United Church-related property in what is now North Korea. This report provides background to this invitation and recommendations for General Council, including a suggestion that the United Church's response be framed in terms of the 1974 actions of the PROK and The United Church of Canada.
